

AISD Rally Day Field Trip Guidelines

- **Field Trips:** If Rally Day is relevant to his/her subject, a teacher may take students as a part of an educational field trip and the district will provide resources as it would for any other field trip, including transportation.
 - There must be a lesson plan developed well in advance of Rally Day tied to TEKS for the field trip.
 - Please be mindful that the lesson may not take a particular political stance or stance on any legislative issue.
 - AISD staff working the field trip may not actively participate in the rally, i.e., carry signs, take positions on issues or any political stance.
 - AISD staff may not require students to actively participate, i.e., hold signs, participate in chants, in the rally beyond observation/attendance, and should ensure that other adult attendees do not attempt to force a student to actively participate.
 - The teacher will need to obtain all required campus approvals for such a field trip.
